

## MATTHEW D. COVINGTON

Department of Geosciences  
Ozark Hall  
University of Arkansas  
Fayetteville, AR 72703  
USA

Phone: 479-575-3876  
Fax: 479-575-3469  
[mcoving@uark.edu](mailto:mcoving@uark.edu)  
<http://www.speleophysics.com>

### **Education:**

**Ph.D. (2008) Physics**, University of California, Santa Cruz

Dissertation: *The production and evolution of scaling laws via galaxy merging*

Advisor: Professor Joel Primack, Distinguished Professor of Physics

**B.S. (2002) Physics**, University of Arkansas, Fayetteville, *Summa Cum Laude*

Honors thesis: *The Trebuchet: Physics, numerics, and connections to millennia of human activity*

Advisor: Professor William Harter

**B.A. (2002) Philosophy**, University of Arkansas, Fayetteville, *Summa Cum Laude*

Honors thesis: *Quantum mechanics and libertarian free will*

Advisor: Associate Professor Thomas Senior

### **Appointments:**

**Assistant Professor (2012-present)**, Department of Geosciences, University of Arkansas, Fayetteville

**NSF International Research Fellow (2010-2012)**, Karst Research Institute, ZRC SAZU, Postojna, Slovenia. Host: Dr. Franci Gabrovšek

**NSF Earth Sciences Postdoctoral Fellow (2008-2009)**, Department of Earth Sciences, University of Minnesota, Twin Cities. Hosts: Professor Carol Wicks and Professor Martin Saar, Gibson Chair of Hydrogeology and Geofluids

### **Research Interests:**

My research employs analytical mathematical models, numerical simulations, and field data in the study of hydrological and geomorphological processes near earth's surface, with a focus on karst hydrological systems. Current and recent projects explore:

- reactive transport, heat exchange, and hydraulics in karst conduits and their importance in the determination of spring signals
- the evolution and dynamics of subglacial hydrological systems
- incision processes in soluble bedrock channels and the relative importance of mechanical and chemical processes
- sediment transport in karst landscapes
- CO<sub>2</sub> dynamics in karst systems

### **Awards and Fellowships:**

NSF International Research Fellowship (2010 – 2012)  
NSF Earth Sciences Postdoctoral Fellowship (2008 – 2009)  
National Speleological Society Cave Diving Section Exploration Award (2009)  
(awarded to U.S. Deep Caving Team for exploration in Cueva J2)  
University of California Santa Cruz Physics Department Dissertation Year  
Fellowship (2008)  
Lawrence Livermore National Lab-Institute for Geophysics and Planetary Physics  
Graduate Fellowship (2006 – 2007)  
NSF Graduate Research Fellowship (2002 – 2005)  
University of Arkansas's 2002 Phi Beta Kappa Distinguished Scholar

### **Research Funding:**

*Collaborative Research: Understanding GrIS moulin hydrology and links to ice motion*

PIs: Jason Gulley (USF), Matthew Covington (UA)  
Funding agency: National Science Foundation, Office of Polar Programs  
Amount: \$691,150 (Total), \$262,037 (UA)  
Duration: 1/2017 – 12/2019

*Comparative microbial community dynamics in a karst aquifer system and proximal  
surface stream in Northwest Arkansas*

PI: Matthew Covington  
Co-PI: Kristen Gibson  
Funding agency: USGS 104b State Water Resources Institute Program  
Amount: \$22,931  
Duration: 3/2016 – 2/2017

*Modeling the influence of sediment, climate, and tectonics on the incision of bedrock  
channels through highly soluble strata*

PI: Matthew Covington  
Funding agency: National Science Foundation, Division of Earth Sciences,  
Geomorphology and Land Use Dynamics Program  
Amount: \$262,795  
Duration: 10/15/2012 – 9/31/2015

*Variable flow and sediment transport in speleogenetic models (OISE-0754495)*

PI: Matthew Covington  
Host: Franci Gabrovšek  
Funding agency: National Science Foundation, Office of International Science and  
Engineering  
Amount: \$144,824  
Duration: 9/1/2010 – 8/31/2012

*Modeling the effects of variable recharge and conduit geometry on flow through karstic aquifers (EAR-0816472)*

PI: Matthew Covington  
Hosts: Carol Wicks and Martin Saar  
Funding agency: National Science Foundation, Division of Earth Sciences  
Amount: \$80,000  
Duration: 11/1/2008 – 10/31/2009

**Service and Synergistic Activities:**

Professional affiliations:

American Geophysical Union  
European Geosciences Union  
Geological Society of America  
National Speleological Society

Reviewer:

National Science Foundation (21), Water Resources Research (7), Acta Carsologica (5), Hydrology and Earth System Sciences (3), Advances in Water Resources (2) Hydrogeology Journal (2), Journal of Hydrology (3), Journal of Cave and Karst Studies (3), Geophysical Research Letters (2), J. Geophysical Research – Earth Surface (1), Earth Surface Processes and Landforms (1), International Journal of Speleology (1), Theoretical and Applied Climatology (1), Geophysical and Astrophysical Fluid Dynamics (1), G-cubed (1), Dept. of Energy (1). **Total: 55**

Educational Outreach:

- Developed presentations on cave science and exploration given to a number of elementary school, middle school, high school, and college students
- Gave public talks combining stories of cave exploration and a message about the importance of cave and karst aquifer conservation
- Presented a public lecture on a scientific expedition to study glacier caves in Svalbard
- Led a cave field trip for a cave ecology summer camp at the Ozark Natural Science Center

Other synergistic activities:

- Served on AGU Hydrology Groundwater Technical Committee, 2010-present
- Convened sessions at: Fall AGU Meeting (2009, 2010, 2011, 2013), GSA Annual Meeting (2014), GSA Section Meetings (2010, 2014)
- Participated in numerous cave exploration and mapping expeditions in Alaska, Sumatra, Peru, Mexico, Svalbard, Slovenia, Croatia, China, France, Lechuguilla Cave, and Jewel Cave (1999-present)
- Co-led an exploration and scientific expedition to Cueva J2, Oaxaca, Mexico (2010)
